\*\*\*\* Bill No. \*\*\*\*

Introduced By \*\*\*\*\*

By Request of the \*\*\*\*\*

A Bill for an Act entitled: "An Act clarifying the use of river basin councils for development and implementation of the state water plan; amending section 85-1-203, MCA; and repealing section 85-2-350, MCA."

Be it enacted by the Legislature of the State of Montana:

**Section 1.** Section 85-1-203, MCA, is amended to read:

**"85-1-203. State water plan.** (1) The department shall gather from any source reliable information relating to Montana's water resources and prepare from the information a continuing comprehensive inventory of the water resources of the state. In preparing this inventory, the department may:

- (a) conduct studies;
- (b) adopt studies made by other competent water resource groups, including federal, regional, state, or private agencies;
- (c) perform research or employ other competent agencies to perform research on a contract basis; and
- (d) hold public hearings in affected areas at which all interested parties must be given an opportunity to appear.

(2) The department shall formulate, ~~and adopt,~~ and amend, extend, or add to a comprehensive, coordinated multiple-use water resources plan known as the "state water plan". The state water

plan may be formulated and adopted in sections, with some of these sections corresponding with hydrologic divisions of the state. The state water plan must set out a progressive program for the conservation, development, utilization, and sustainability of the state's water resources and propose the most effective means by which these water resources may be applied for the benefit of the people, with due consideration of alternative uses and combinations of uses.

(3) Sections of the state water plan must be completed for the Missouri, ~~Yellowstone, and Clark Fork River basins~~ River basin, the Yellowstone River basin, and the Clark Fork and Kootenai River basin, submitted to the ~~2015~~ 2035 legislature, and updated at least every 20 years. These basinwide plans must include:

(a) an inventory of consumptive and nonconsumptive uses associated with existing water rights;

(b) an estimate of the amount of surface and ground water needed to satisfy new future demands;

(c) analysis of the effects of frequent drought and of new or increased depletions on the availability of future water supplies;

(d) proposals for the best means, such as an evaluation of opportunities for storage of water by both private and public entities, to satisfy existing water rights and new water demands;

(e) possible sources of water to meet the needs of the state; and

(f) any legislation necessary to address water resource

concerns in these basins, including water right permitting;  
(g) identified data gaps and water mangement issues;  
(h) methods to prevent invasive species; and  
(i) a forum for all people to communicate about water  
issues.

(4) (a) The department shall create ~~a water user council in both~~ or use an existing basin council in the Yellowstone, ~~and Missouri, and Clark Fork and Kootenai~~ River basins that is inclusive and representative of all water interests and interests in those basins. ~~For the Clark Fork River basin, the department shall continue to utilize the Clark Fork River basin task force established pursuant to 85-2-350.~~

(b) ~~The councils in the Missouri and Yellowstone River basins consist of representatives of existing watershed groups or councils within the basins~~ basin councils consist of members of watershed groups or water user organizations, irrigators, local government officials, tribal members, and water resource specialists.

(c) Each basin council may have up to 20 members.

(d) Each ~~water user~~ basin council shall make recommendations to the department on the development and implementation of the basinwide plans required by subsection (3).

(5) Before adopting the state water plan or any section of the plan, the department shall hold public hearings in the state or in an area of the state encompassed by a section of the plan if adoption of a section is proposed. Notice of the hearing or hearings must be published for 2 consecutive weeks in a newspaper

of general county circulation in each county encompassed by the proposed plan or section of the plan at least 30 days prior to the hearing.

(6) The department shall submit to the water policy committee established in 5-5-231 and to the legislature at the beginning of each regular session the state water plan or any section of the plan or amendments, additions, or revisions to the plan that the department has formulated and adopted.

(7) The legislature, by joint resolution, may revise the state water plan.

(8) The department shall prepare a continuing inventory of the ground water resources of the state. The ground water inventory must be included in the comprehensive water resources inventory described in subsection (1) but must be a separate component of the inventory.

(9) The department shall publish the comprehensive inventory, the state water plan, the ground water inventory, or any part of each, and the department may assess and collect a reasonable charge for these publications.

(10) In developing and revising the state water plan as provided in this section, the department shall consult with the water policy committee established in 5-5-231 and solicit the advice of the water policy committee in carrying out its duties under this section."
